

Marinomed Biotech AG, publically listed on the Vienna stock exchange, is a family-friendly biopharmaceutical research and development company that engages in research in the indications of immunology and infectious diseases and develops new products in these areas.

We are a dynamic, innovative company and are looking to strengthen our R & D team with **immediate** effect on a **full-time** basis a dedicated

Clinical Research Scientist

Your tasks:

- Cooperation and Management of external service providers in the field of clinical research
- Preparation and review of study-specific documents (IB, protocol, CRF, CSR, ...)
- Scientific support of R&D projects within the project team
- Monitoring of clinical project progress
- Ensuring compliance with relevant regulatory requirements (drugs and medical devices)

We expect:

- Degree in natural sciences
- Experience with clinical trials and knowledge of GCP and ISO 14155
- Ideally basic medical and immunological knowledge
- Preferably experience with pharmacovigilance in clinical trials
- Ability to work independently and reliably
- Ability to accompany a multidisciplinary team on a project-related basis
- High social and communication skills
- Good language skills in spoken and written German and English (C1)
- Good computer user skills

Your benefits:

- An exciting, varied work environment in a growing and successful Austrian biotechnology company
- Research-driven development in a forward-looking field
- Flexible working hours
- Excellent working atmosphere in a motivated team
- Depending on qualifications and professional experience, we offer a gross annual salary of approximately **Euro 50,000** on a full-time basis
